

# Wall mounted instrument column

## IC-1

# The IC-1 saves you valuable floor space

## IC-1

This IC-1 instrument column is wall mounted, resulting in an exceptionally small footprint, saving you valuable floor space and making it easy access for cleaning purpose. The IC-1 is available in two colours and can be set up for one or even two instruments. The vertical elevation of the table top allows for seated or standing operation of your instruments.

With the additional option of a monitor and keyboard support, this IC-1 instrument column will turn into a complete flexible workstation, which is also easily accessible for wheelchair patients. The IC-1 in combination with Topcon's Joystick free instruments is the perfect solution to provide complete refractive eye care on a single square meter.

- » Modern design
- » Tabletop available for one & two instruments
- » Space saving
- » Simple & easy operation of the tabletop
- » Easy wheelchair accessibility
- » Vertical elevation of tabletop by 600mm
- » Standing & sitting position usability
- » Workstation with monitor & keyboard support

# WALL MOUNTED INSTRUMENT COLUMN

**IC-1**

The IC-1 wall mounted instrument column is designed especially for combining it with Topcon's new line of joystick free, touch screen operated instruments. These instruments can be placed in a conventional setup, against a wall, or even in a corner of a room, allowing

for the operator to be located anywhere around the patient. The modern and innovative design of the IC-1 will seamlessly fit in any consulting room. Complete with touch screen PC and keyboard your IC-1 will turn into a complete workstation for the 3D-OCT Maestro.

## EASY CLEANING

Being wall mounted, the IC-1 provides no obstruction for cleaning the floor in a professional way.

## MONITOR/KEYBOARD SUPPORT

The monitor can be placed on either side of the column in variable height positions, the keyboard tray can be rotated and be stored underneath the tabletop.

## COLOUR CONFIGURATIONS

The IC-1 is available in various color settings.

### POLE

### SIDE COVERS

### TABLE TOP

## FOOTPRINT

Saving valuable shop floor space with the extremely small footprint of the IC-1. The installation of even two instruments will take no more than 0,5 m2 (780mm x 650mm)

## MULTIPLE INSTRUMENTS

The IC-1 is available with a choice of tabletops suitable for one or two instruments.

## VARIOUS INSTRUMENT POSITIONS

The IC-1 tabletop can be operated from three sides. This allows you to install any Joystick operated instrument in a “classic” way with patient and operator on either side.

## ELEVATED TABLETOP

The tabletop can be elevated by 600mm to allow the operator to test at sitting or standing position with ease. The minimum tabletop height of only 720mm allows easy examination of children. The up/down button can be installed on any tabletop side of your choice.

## WHEELCHAIR ACCESS

Free from typical table feet, the clear floor space makes wheelchair patients manoeuvring and positioning very convenient.

## Specifications
