275/P 600SA

SEMIAUTOMATIC BOLLARDS WITH GAS ACTUATOR

The semiautomatic bollard PILOMAT 275/P 600SA with single gas actuator is designed and built with architectural appearence similar to that of the automatic PILOMAT bollards and therefore also allows the combined use of both versions. Current models are the result of our 40 years'experience in the security field and in excess of 20 years in the specific design and manufacture of bollards.

GENERAL FEATURES

The Semiautomatic PILOMAT are used to define or prevent the stationing or transit of vehicles in pedestrian or private areas. Because of the procedure of parking, it is advised that the semi-automatic PILOMAT be used only if the amount of daily movements is limited.
